

# Project A - An Introduction to LaTeX and Me

Bharath Karumudi

July 4, 2019

## Abstract

The purpose of this document is for Project A, to produce a basic technical report of professional quality using LaTeX. The contents of the document includes: (1) Where I grew up, (2) My program of study, (3) Why I picked my program of study, (4) Why I am taking Assurance fundamentals and (5) What I hope to learn in Assurance fundamentals.

**Acknowledgements:** Professor Marvine Hamner and Professor Shiu-Kai Chin who helped in usage of LaTeX.

## 1 Where I Grew Up

**My home town** I grew up in a town of Andhra Pradesh, which is part of India.

**What I liked** I like the beach and also having all friends and family in the same town.

**What I disliked** The humid weather.

## 2 My Program of Study

I enrolled in Cybersecurity program at Syracuse University in the fall of 2018.

## 3 Why I Picked My Program of Study

I am working in IT industry from last 8 years, but with a application background. With the technology evolving every day, I feel security is very much important to protect the assets. So I wanted to learn the Cybersecurity and work in security domain.

## 4 Why I am Taking Assurance Fundamentals

- To understand the access controls.
- To build secure environments.

## **5 What I Hope to Learn in Assurance Fundamentals**

1. A practical way of implementing the security.
2. Right way of doing the access controls, security and trust.

## **6 Executive Summary**

**Summary:** All requirements are satisfied without exception and documented.
